# COMPANY OVERVIEW

## Connecting East African Agriculture to Global Markets

Rhylo Agro Exports & Supplies East Africa is a Uganda-based agro supply and export company specializing in the sourcing, aggregation, distribution, and exportation of high-quality agricultural products across local and international markets.

The company operates through two key divisions: agro internal distribution and agro export services, supplying products to factories, food processors, dairies, bakeries, and international buyers through reliable sourcing systems and professional logistics coordination.

At Rhylo Agro, we are committed to quality assurance, strong farmer partnerships, efficient supply chains, and sustainable agricultural trade that connects East African producers to global opportunities.

## BUILDING STRONGER AGRO SUPPLY CHAINS. DELIVERING GREATER VALUE.

From farm to factory and from Uganda to the world,  
we connect quality produce with the right markets  
through efficiency, integrity, and excellence.

### OUR SUPPLY CHAIN EXCELLENCE

#### STRONG FARMER NETWORK

We work closely with trusted farmers and local suppliers to source quality produce.

#### QUALITY ASSURANCE

Every product goes through strict quality checks to meet local and international standards.

#### EFFICIENT LOGISTICS

Reliable transportation and cold-chain solutions ensure safe and timely delivery.

#### PROFESSIONAL PACKAGING

Industry-standard packaging that preserves freshness and meets export requirements.

#### STRONG INDUSTRY LINKS

We supply factories, dairies, bakeries, and food processors with consistency and reliability.

#### GLOBAL MARKET ACCESS

Our export arm connects Uganda's premium produce to international buyers with confidence.

#### FINANCIAL STRENGTH

Our financial capacity enables us to support farmers upfront and sustain a resilient supply chain.

#### CUSTOMER COMMITMENT

We build lasting relationships by delivering value, transparency, and consistent service.

QUALITY OUR STANDARD.  
TRUST OUR COMMITMENT.

# OUR EGG STANDARDS

QUALITY YOU CAN TRUST. EVERY EGG. EVERY TIME.

At Rhylo Agro Exports & Supplies, we are committed to supplying safe, high-quality eggs that meet global standards for food processing and consumption.

## OUR EGG QUALITY STANDARDS

### FOOD SAFETY FIRST

We follow strict food safety and hygiene practices at every stage of our supply chain.

### FRESH & CLEAN

Eggs are clean, fresh, and free from cracks, dirt, and abnormalities.

### UNIFORM SIZE & WEIGHT

Consistent size and minimum weight as per international grading standards.

### PROPERLY STORED

Stored and transported at the right temperature to maintain freshness and shelf life.

### CANDLING & INSPECTION

Each batch is candled and inspected for shell quality and internal cleanliness.

### GRADE COMPLIANT

Graded in line with global standards (e.g. Codex Alimentarius, EU, USDA) for table and industrial use.

### BIOSECURITY ASSURED

Sourced from healthy, vaccinated flocks under biosecure and ethical farming conditions.

### SAFE PACKAGING

Packed in strong, clean trays and sealed for protection during handling and transit.

### OUR COMMITMENT

We are committed to delivering eggs that meet the highest global standards of safety, quality and consistency—every time.

# MILK QUALITY STANDARDS

## REQUIRED OF ALL OUR SUPPLIERS

At Rhylo Agro Exports & Supplies, we are committed to sourcing and supplying the highest quality milk for food processing. The following standards are mandatory and are maintained across our entire supply chain.

### MANDATORY QUALITY STANDARDS FOR RAW MILK

#### 1. BUTTER FAT

**MINIMUM 3.5%**

Milk must contain a minimum of 3.5% butter fat.

#### 2. CL/R (CLEANLINESS)

**MINIMUM 28**

Minimum Cleanliness Reading (CLR) of 28 or above.

#### 3. ALCOHOL TEST

**80% NEGATIVE**

Must return 80% negative on the alcohol test.

#### 4. RE-SAZURIN TEST

**MINIMUM 5 HOURS**

Minimum 5 hours on the Resazurin test.

#### 5. NEUTRALIZERS

**NEGATIVE**

Milk must be free from any neutralizing agents.

#### 6. ADULTERANTS

**NEGATIVE**

Milk must be free from adulterants (e.g. water, starch, urea, detergents).

### ADDITIONAL BEST PRACTICE STANDARDS WE MAINTAIN

#### TEMPERATURE

Milk must be cooled immediately and maintained at  $\leq 4^{\circ}\text{C}$  during collection, storage and transport.

#### CLEAN & FILTERED

Milk must be free from visible dirt, sediments, and foreign particles.

#### HYGIENE

Milking must be done in a clean environment with good animal and udder hygiene.

#### ANTIBIOTIC FREE

Milk must be free from antibiotic residues and inhibitory substances.

#### TIMELY DELIVERY

Milk must be delivered to the collection center on time and in good condition.

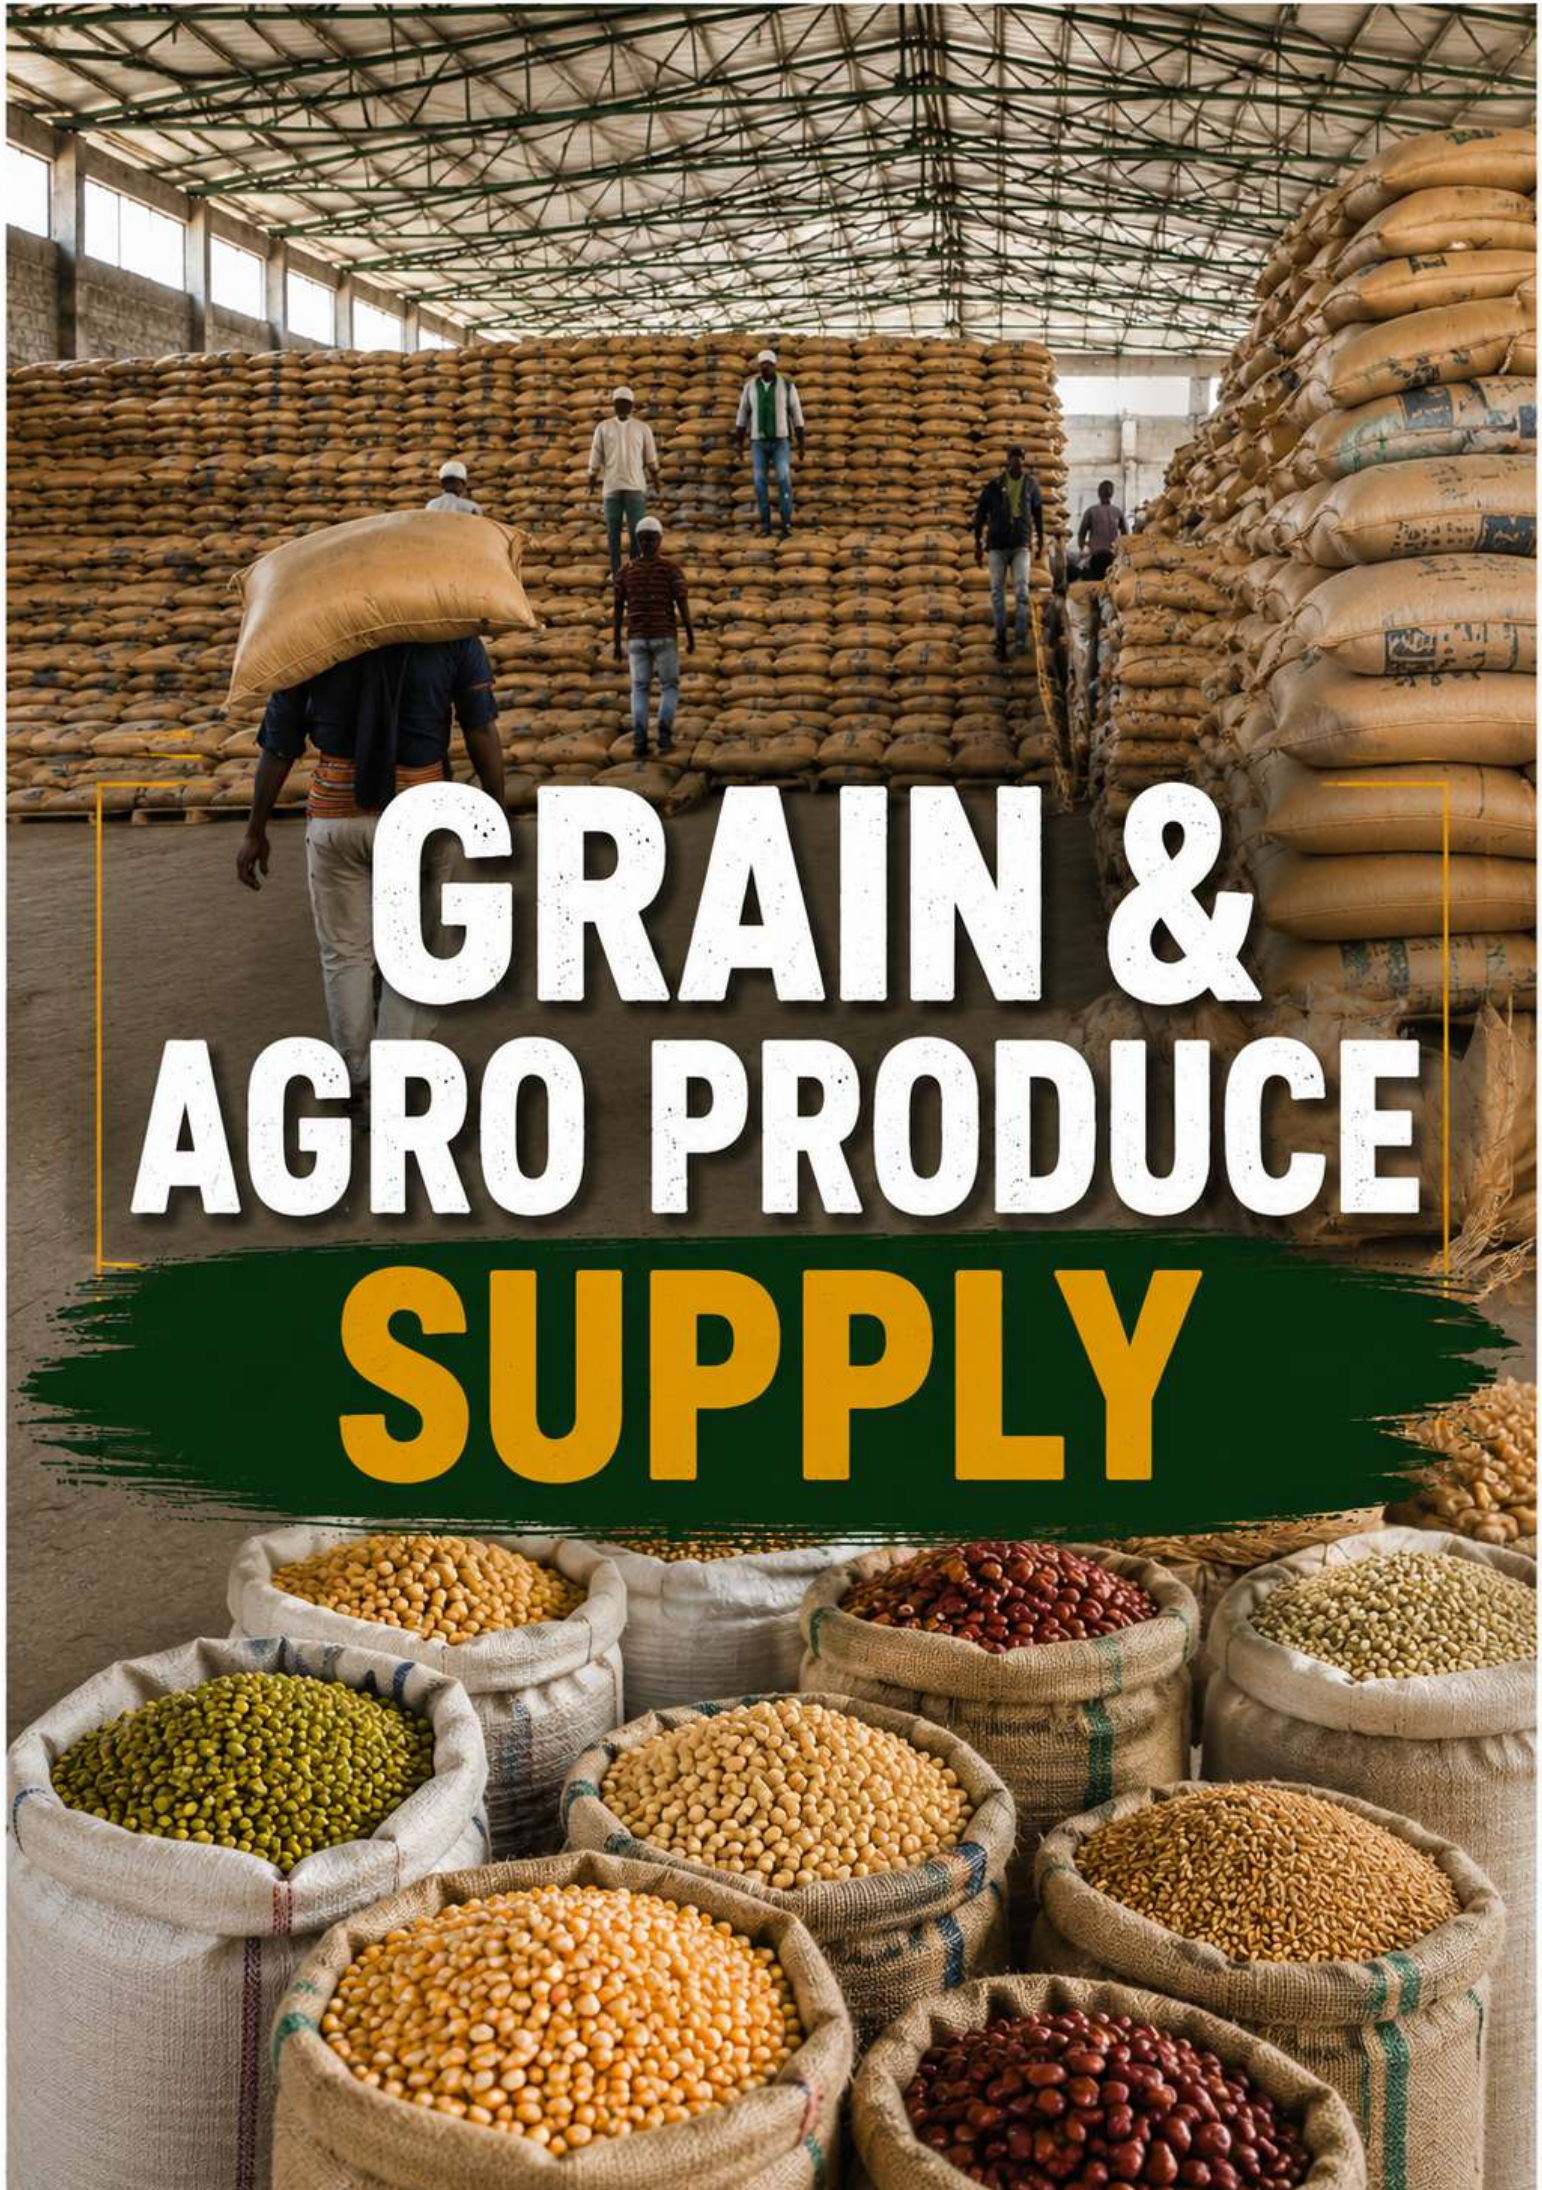

#### OUR PROMISE

We maintain these standards across our entire supply chain to ensure safe, high-quality milk for our manufacturing and food processing partners.
